# S-SCAN SYSTEM

## Components

Your S-scan Point of Sale system consists of one pressure sensing mat and tablet. S-scan mat connects to the tablet via the USB cable.

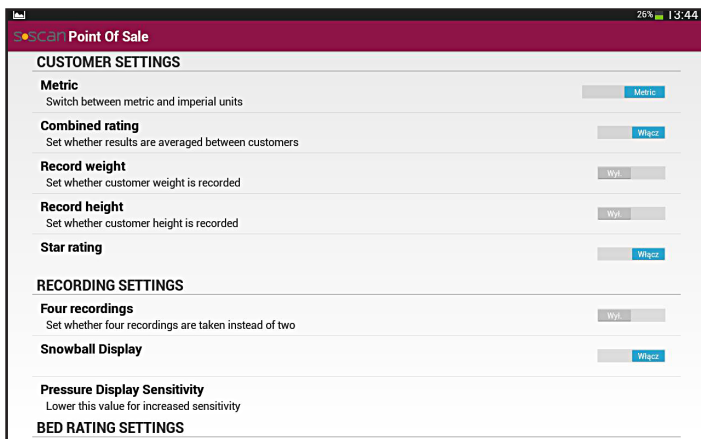

soscan™

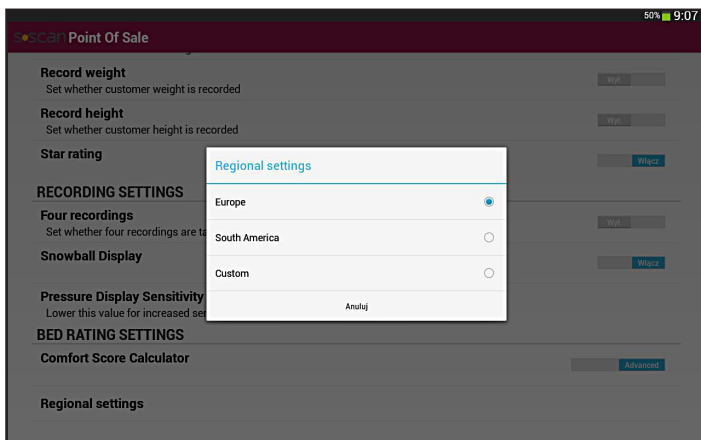

# PREPARING AND MAKING THE INITIAL SETTINGS

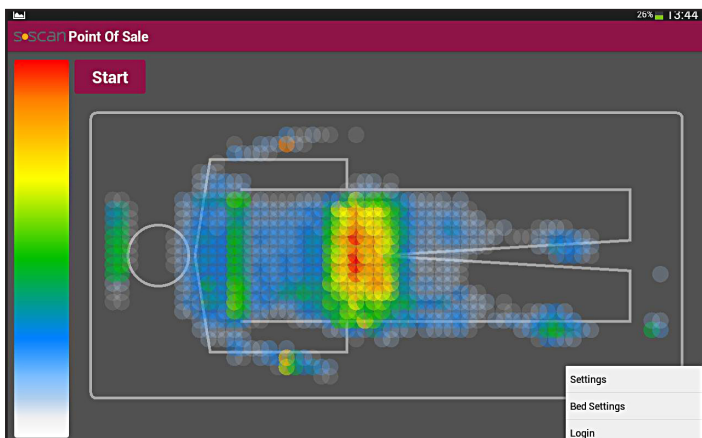

1. Go to settings (menu button) to arrange customer, recording and bed rating settings.

**-NOTE!** In BED RATING SETTINGS Advanced Comfort Score Calculator is recommended.

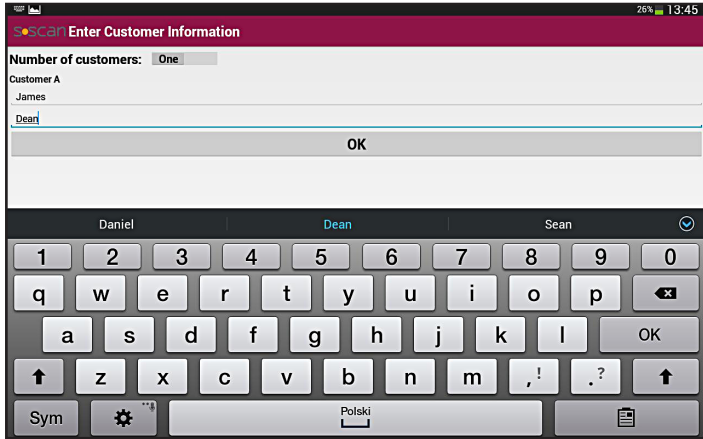

2. Go to bed settings (menu button) and select at least two beds.

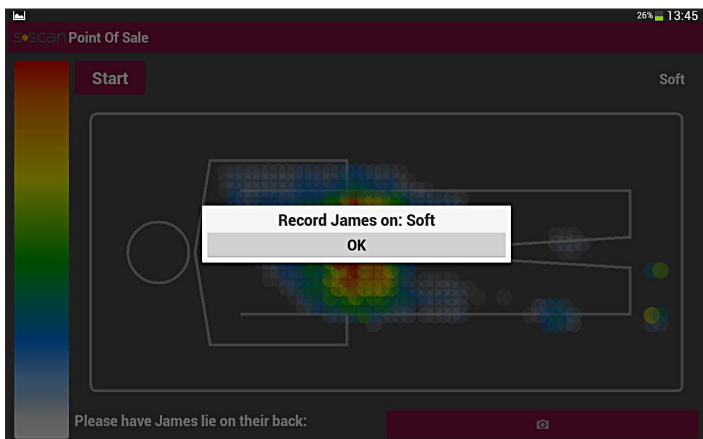

# HOW TO DO THE ACTUAL PRESSURE MAPPING WITH A CUSTOMER

## Getting Session Started

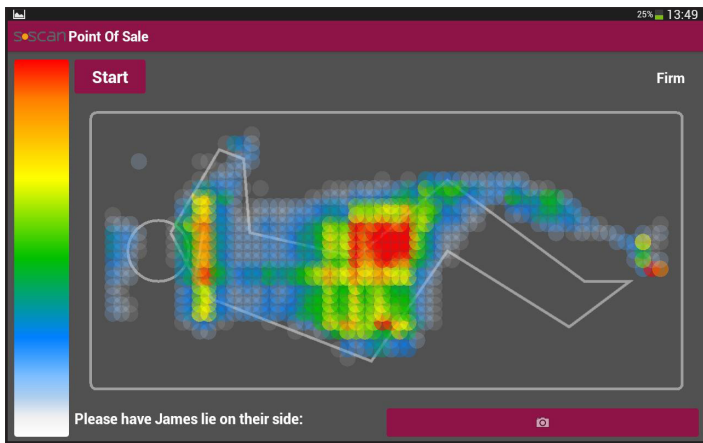

**1.** Click START to enter customer information. Set number of customers and their information.

**2.** Follow step by step instructions to start measuring.

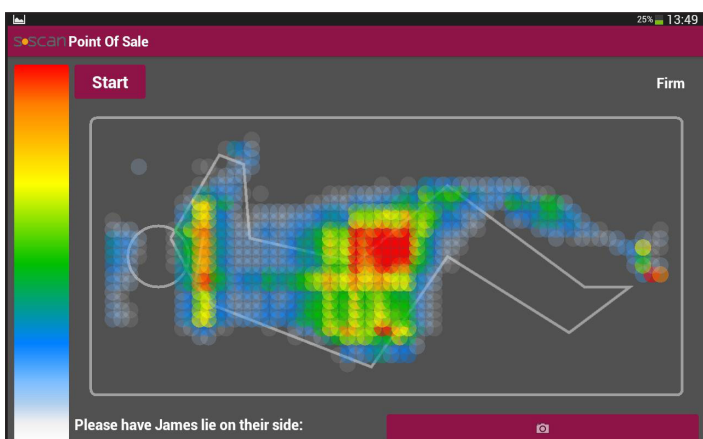

**3.** In order to take pictures click camera icon.

**-NOTE!** Please wait some time (about 30 seconds) before every picture is taken.

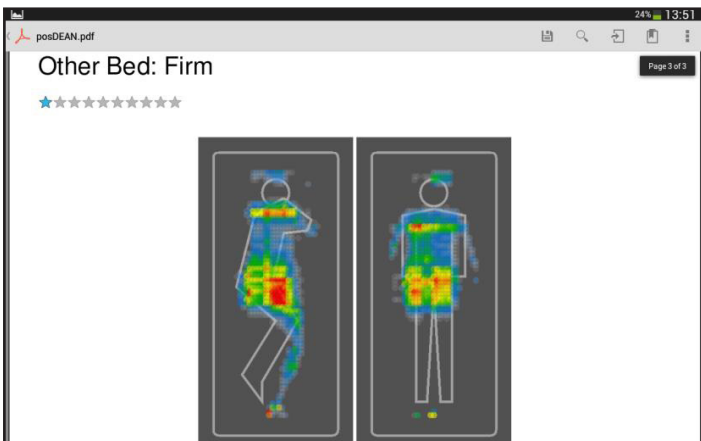

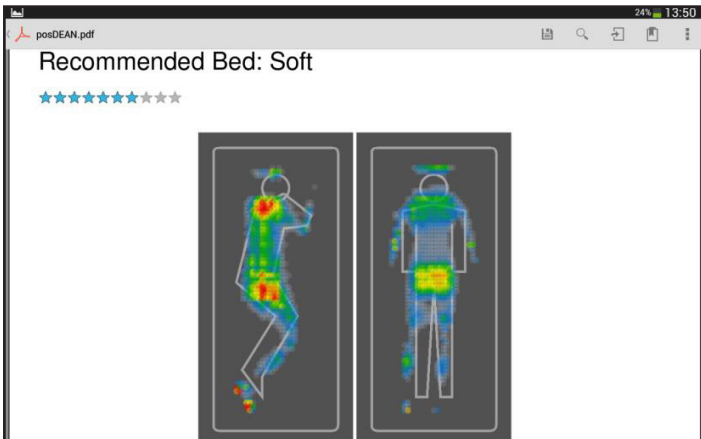

4. After the session check the star rating and pressure mapping images.

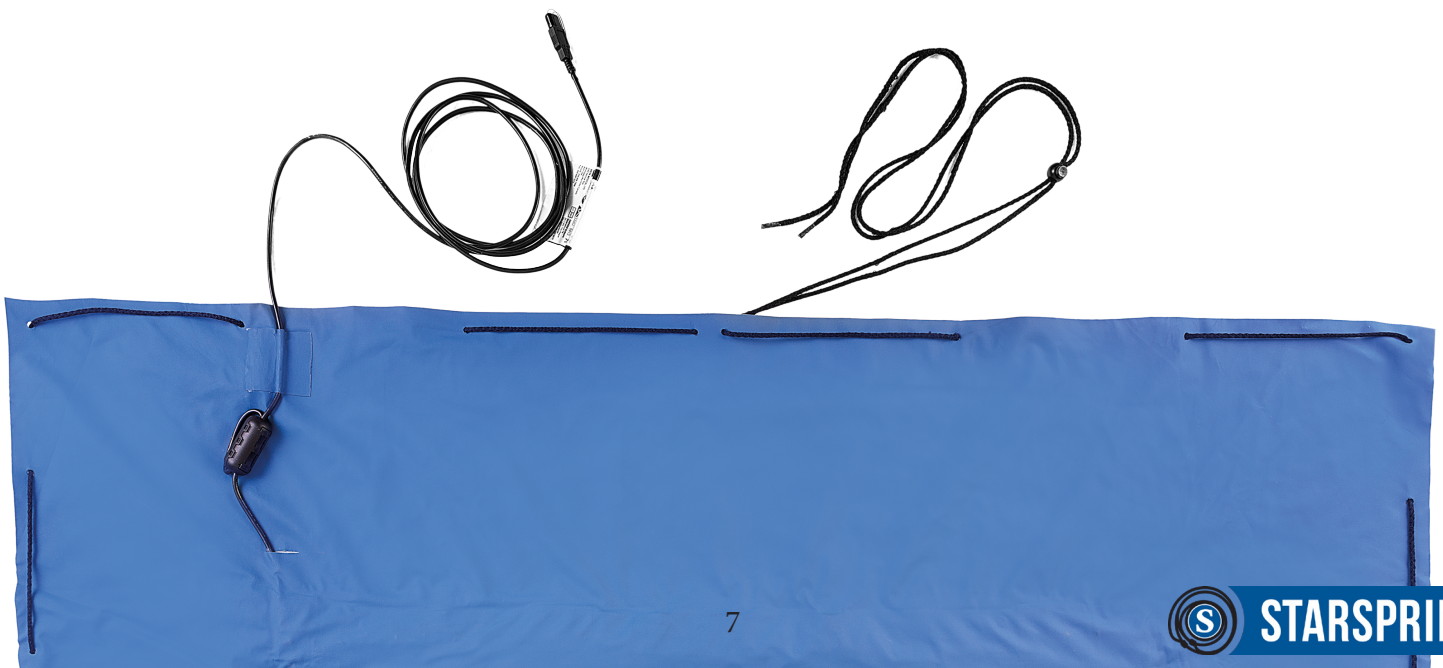

**-NOTE!** There is possibility for a session without star rating. To switch star rating off please check PREPARING AND MAKING THE INITIAL SETTINGS section.

5. Get recommendation by printing the results or creating PDF report.

6. Repeat through all steps one more time if required.

## Why S-Scan Point of Sale?

**S-scan Point of Sale** easily lets you guide your customers through the mattress selection process and it helps them discover the best personal setting.

Sleep options are scanned and scored with a comfort index to help the consumer select the best product for their personal needs—the one that will give them a better night sleep... and you more satisfied customer!
